

Please do not lessen the effectiveness of Indiana Telephone Privacy Law. Prior to putting our name on Indiana no call list. We received dozens of telemarketing calls from companies in whom we had no interest. We received calls from companies we had done business with in the past, but with whom we did not wish to engage in any further business. These calls were disruptive to our family life, constantly interrupting the time we were spending with our children. Now, we rarely receive an unwanted call.
